Professional Summary

Full Stack Developer with 1.5+ years of experience building scalable, high-performance web applications using the MERN stack. Strong focus on React.js frontend development, REST API development with Node.js and Express.js, and efficient database design using MongoDB and MySQL. Proven ability to deliver production-ready features and optimize application performance.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL

Tools: Git, Postman, Redux, AWS (S3, EC2)

Experience

Full Stack Developer

March 2025 – Present

Media Falcon, Hyderabad

- Built and maintained MERN stack applications serving 10,000+ daily users.
- Improved application performance by 40% through React optimization and MongoDB indexing.
- Developed secure RESTful APIs using Node.js, Express.js, and JWT-based authentication.
- Implemented responsive and accessible user interfaces using React.js and Tailwind CSS.

Full Stack Developer Intern

October 2024 – March 2025

Media Falcon, Hyderabad

- Developed React.js components and integrated frontend with backend REST APIs.
- Implemented JWT-based authentication, third-party integrations, and backend performance optimizations.
- Reduced API response times by 35% through efficient data handling.

Projects

CodeHireGlobal – Recruitment SaaS Platform

React.js, Node.js, Express.js, MongoDB, Redux, AWS

- Built a full-stack recruitment platform with candidate management and job workflows.
- Achieved 40% faster load times using code splitting and frontend performance optimization.
- Live website: <https://codehireglobal.com/>

Careersoft Solutions (CSS Inc) – Corporate Website

React.js, JavaScript, HTML, CSS

- Developed and deployed a responsive corporate website with modern UI components.
- Optimized frontend performance and ensured cross-browser and mobile compatibility.
- Live website: <https://cssinc.ai/>

Prnit Corp – Corporate Website

HTML, CSS, JavaScript, PHP, MySQL

- Built a responsive corporate website with a custom CMS and optimized performance by 45%.
- Developed backend modules enabling non-technical users to manage website content independently.
- Live website: <http://prnitcorp.com/>

Education

B.Tech – Computer Science (AI & ML)

Presidency University, Bangalore

2020 – 2024
